# Sodium Ascorbate DC97

### Chemical overview

| | | | |
|---|---|---|---|
| Chemical name | Sodium Ascorbate DC97 | Synonyms and Related Compounds | L-Ascorbic Acid Sodium Salt |
| CAS # | 134-03-2 | Formula | $C_6H_7NaO_6$ |
| Specifications | Appearance: White or yellowish granular powder<br>Assay: 98.5% - 99.5%<br>Analysis standard: FCC/USP/BP/Ph. Eur.<br>Kosher, Halal, Non-GMO, Vegan, Gluten Free, Dairy Free | | |
| Packaging | 25 kg net weight carton with two inner plastic linings and vacuum-sealed bag. | | |
| Applications | Vitamin supplements (tablets) | | |
| Description | Sodium ascorbate DC97 is a salt and a buffered form of ascorbic acid DC97. It is a white to slightly off-white powder that contains approximately 3% hydroxypropyl methylcellulose and other additives that allow for the powder to be compressed into tablets. The addition of sodium to ascorbic acid may reduce gastrointestinal distress. Humans obtain Vitamin C through a diet containing of citrus fruits, vegetables, and supplementation to maintain core biological functions. | | |
